Effects-Based Capabilities for the War Fighter

Transforming WR-ALC
How Do We Measure Success?

- Have we improved delivery of capability to the war fighter…
  - Is it more available?
  - Does it perform better?
  - Is it more deployable?
  - Is it more affordable?
- From the war fighters perspective…that's what matters!

Transforming WR-PK
How Do We Measure Success?

- Have we improved delivery of capability to the war fighter…
  - Is it more available?
    - PK - Have we reduced acquisition cycle time?
    - PK – Are we assured of timely delivery?
  - Does it perform better?
    - PK - Have we obtained a reliable product from a reliable source?
  - Is it more deployable?
    - PK - Have we addressed deployability/footprint during the requirements identification phase?
  - Is it more affordable?
    - PK - Have we determined the price to be fair and reasonable through negotiations with the sole source contractor, or through best value procurements?
